ABOUT – AMAE EXPERIENCE

AMAE (甘え) is a Japanese word that expresses the deep human need to feel welcomed, protected and part of a group. From this philosophy comes our Paint Experience: not just a painting class, but a sensory journey designed to break the routine, spark emotional intelligence and bring people together through the creative flow.

Our Pillars

Our method is rooted in the culture of Slow Living and the care of relationships. We firmly believe in an experience based on:

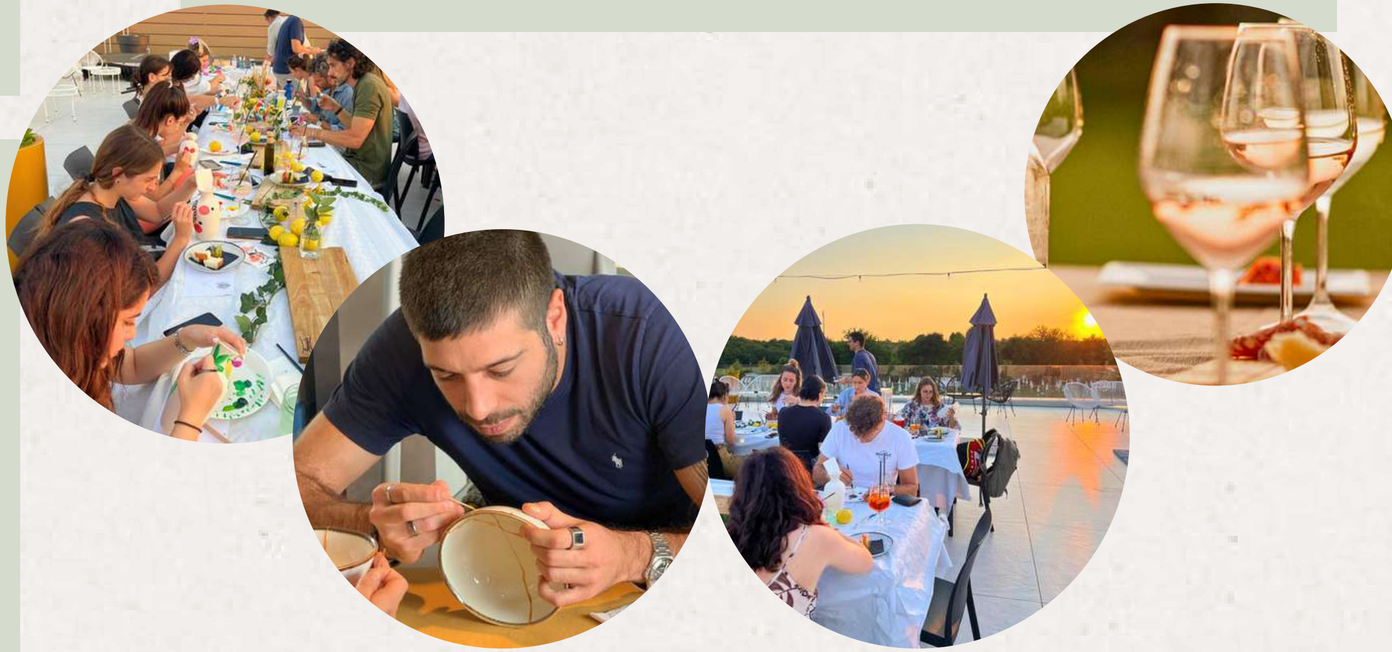

Inclusion & Support: A welcoming environment where mistakes don't exist – they become uniqueness.

Conviviality & Bonding: Fluid moments that break down barriers and celebrate mutual support.

Moving Together: The desire to step out of your comfort zone with enthusiasm, rediscovering individual potential within the group.

Authentic Connection

An AMAE experience goes well beyond a typical art workshop: it is a safe space to unplug from daily routines, laugh together, build complicity and rediscover each other in a relaxed, informal atmosphere. Creativity, paired with a good glass of wine, becomes the perfect excuse for real, spontaneous and lasting human connections.
